 **@rswebdesigner**

 **tamizhographer**

2006

+

*“Solve the right problems,
solve the problems right”*

SOLID, Domain Driven Design, 7 Design Principles, Goal Driven Development, TDD

RDD – Readme Driven Development

“Write the Readme first”

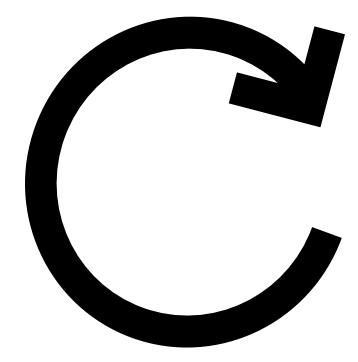

How?

Laravel Package CLI

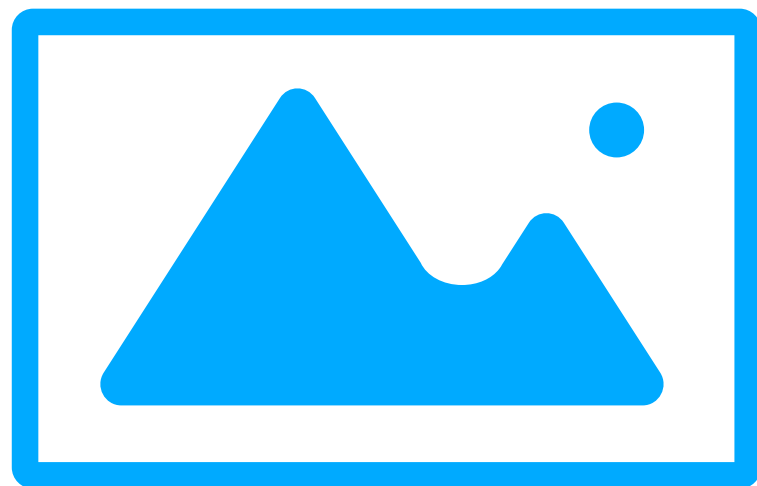

Getting Started

Usage

README.md

Y tho?

The bigger picture

Speak the same language

Verify your idea

Doing TDD?

You have your features

You have a README

RDD !== DDD

Say “**NO**” to perfection

~~**RDD everywhere**~~

Package Development
API Driven Development
SDK Development
Microservices

tl;dr

Thank You!

~~Shout now if you have questions!~~

Just find me afterwards and talk to me
